Alessandra Vacchio
President

Dear Members and Friends,

Beth Devine
Vice President

Recently the Wappingers Historical Society has partnered with Viridian, a socially responsible energy company, which offers its customers - individuals, businesses, and organizations - affordable, green electricity with a minimum of 20% coming from renewable sources, like wind. Viridian also offers natural gas at competitive prices.

Susanne Turner
Treasurer

Thanks to government deregulation consumers now have the right to select an alternate provider to supply their electricity and gas. As a result of our arrangement with Viridian, our members and friends now have an opportunity to provide financial support to the Wappingers Historical Society by simply - without any cost - switching to Viridian. This can be accomplished by going to www.viridian.com/wappingershistoricalsociety and following the prompts. The entire exercise can be completed in five minutes or less. For assistance or further information, please contact historical society member Ed Tucker, who has been designated by me to coordinate this fundraising program. He can be reached at etuckersenior@msn.com and at 845-453-1162.

Mary Westermann
Recording Secretary

Lynda Byrne
Corresponding Secretary

The Village of Wappingers Falls has also recently switched their provider to Viridian, as have numerous other municipalities. I myself switched to Viridian more than six months ago and have had a substantial savings in my own home electric bill.

Trustees

At this time I would like to thank you in advance for your participation.

Michele Baez

Sandy Brady

Larry Byrne

Cassandra Goodwin

Mary Schmatz

Michael Vacchio

Sincerely yours,

Sandra Vacchio, President
